Accidents 748
Aircraft and missile maintenance and modification program 485, 527
  Depot level maintenance 529
    Aircraft maintenance reconditioning cycle 539
    B–47's, flight safety and overhaul cycle 540
    Contract maintenance 531
      Missiles, overhaul of 537
      Policy relating to 534, 543
      Prime- and sub-contractors, division of work between 535, 538
      Small contractors, utilization of 535
    Evaluation of requirements 550
    Location and staffing of depots 553
    Missile maintenance 547
    Overhaul:
      Operations, savings in 541
    Reduction of depots 538
  Modernization 546, 551
  Summary of program 559
  Workload, distribution of 530
Aircraft and missile procurement and support 95, 278
  Aircraft 13, 39, 341
    Airlift, limited funds for 372
    Alert, number on 742
    Bombers. (*See* this title, this index.)
    C–133, cargo plane 345, 356
    Engines, types and utilization of 362
    Evaluation of programs, need for proper 375, 377
    F–101, fighter interceptor 353
    F–105, tactical fighter bomber 354
    F–106, fighter interceptor 342, 354, 355
    F–108, long-range fighter-interceptor 344, 355
    H–43, rescue helicopter 365
    KC–135, Stratotanker 345, 357
    Lighter metals, use of 368
    Missiles, comparative emphasis on 370
    Nuclear powered airplanes 32, 56, 168, 374
    Obsolete aircraft, phasing out of 356, 379, 380
    T–37, jet trainer 360, 362
    T–38, supersonic trainer 364
    Types of aircraft 361
    UCX, utility cargo transport 358
    UTX, utility trainer 365
    Wings:
      Composition of 6
      Decrease in number of 65, 67
  Contracting 285
  DEW line. (*See* this title, this index.)
  Director of Budget, general statement of 293
  Director of material programs, general statement of 301
  Manned interceptors, requirement for 57
  Tanker-bomber ratios 60
  Aircraft and missile's spares 406
    Continental United States stocks 425
    Economic retention stocks 416
    Equipment modification, increase in 456

Aircraft and missile procurement and support—Continued
Aircraft and missile's spares—Continued Page
Excessive stocks, disposition of 291, 417
Flow of items through different stock segments 435
Flyaway kits 448
Helicopter spares, procurement of 451
Hi-Value rapid transit airlift 440
Interservice cooperation in parts procurement 450
Inventory locations 420
Inventory of aircraft spares, value of 411
Management improvement in provisioning 287
Missile spares 442
New aircraft, spare parts for 428
Obsolescent operating stocks 425
Operating stocks 412
Inventory, breakdown of 430
Overhauls, spare parts and aircraft engine 439
Overseas stocks 421, 457
Phased requirement and phased procurement 447
Requirements, study of 406, 444
Residual stocks 417
Single manager procurement system 454, 456
Stock, deterioration of 411
Storage and handling costs 458
Study group report, summary of 406
Supply management, improvements in 436
War-readiness stocks 413, 455
Assistant Secretary for Materiel, general statement of 282
Chief, Equipment Programs Division, Directorate of Material Programs, general statement of 304
Command control and warning 284, 381
Air Defense Communications 384, 387
Ballistic missile early warning 382
Deputy Director of Communications-Electronics, general statement of 381
Intelligence systems 397
NATO radar needs 402
Navigational aids 397
Radar defense networks, summary of 386
Strategic communications system 284, 389
Tactical aircraft control and warning 385, 387
Weather 397
Component production development 473
Research and development program, relation to 484
Excess property problems 291
Expenditures 300, 334, 404
Ground support equipment 283, 404
Industrial facilities 286, 467
Justification of the estimates 295, 487
Missiles (*see also* this title, this index) 308
New obligational authority 300
Obligations 300, 335
Organizational and base support equipment 283, 462
Passenger carrying automobiles 462
Program requirements and financed program, distinction between 305
Procurement, budget authorizations available for 104
Recoupments 306
Semiautomatic Ground Environment. (*See* this title, this index.)
Small business, assistance to 475
Support procurement, significant trends in 486
Supply improvement program 289
Aircraft fuel and oil program 566
Aircraft on alert, status of 603
Director of operations, general statement of 567
Flight training capability, limitations on 569

Aircraft fuel and oil program—Continued
Flying program: Page
Aircraft design in relation to crew capabilities 571
Central flight status selection board 592
Crew alert time and activities per week 590
Crew to aircraft ratio 579, 582
Curtailment in flying hours 604
Direct benefits of 574
Excessive changes of station 597
Flying proficiency:
Age, effect of 582
Decrease in 588
Essential Air Force missions, proficiency flying while performing 596
Flying hours, jet and conventional, breakdown of 593
Maintenance of equipment, effect of 578
Noncrewman 573
Pilots, number of 589
Transport services, proficiency flying for 586
Low altitude bombing system 572, 592
Rotation of personnel and career progression 584
Fuel and oil costs per flying hour 580, 594
Nonflying activities, fuel for 601
Offshore procurement 750
Special fuels programs, increase in 600
Strategic Air Command:
Percentage of fuel funds available to 576
Reduced flying hours in 604
Airlift (*see also* Military Air Transport Service, this index):
Aircraft:
Airlift and cargo carrying 367
Limited funds for 372
Civil Reserve Air Fleet, role of 34
Force 22
Hi-value rapid transit airlift 440
Military personnel travel, financing of 851
Mission of 22
Reserves, mission of 892

B

Ball lightning, use of 3, 5, 53
Bases, closing and enlarging of 51
Bombers:
Additional manned bombers, requirement for 13, 39
B–36, continued use of 52
B–47:
B–58, comparison with 44
Flight safety and overhaul cycle 540
Low-altitude bombing, use of, for 71
Wing, cost of deploying 41
B–52:
Cost of 44
SAC, number operational in 68
Snark:
Comparison with 39, 41, 42, 46, 47
B–58:
B–47, comparison with 44
Program for 31, 348
Range of 45, 240
B–70:
Atlas missile, relation to 350, 351, 352
Development, speedup of 55, 238, 239
Operational date for 65
Procurement and support 349
Status of 32
Tankers, ratio to 60, 348
Transport aircraft, conversion to 167

Missiles—Continued
Page
Bomarc:
Function of 20
Characteristics of 70
Launching sites 69, 330
Operation of 72
Procurement and support 319, 330, 339
Status of 67
British solid-propellant missile 249
Bullpup, status of 66, 178
Changing elements in 30
Decoy systems 12, 62, 324
Defense missiles 69
Direct support of program 721
Evaluation of programs, need for proper 375, 377
Fuel, research on 275
Guided aerial rockets, procurement and support of 322
Hound Dog, procurement and support of 317
ICBM, accuracy of 50
Interceptors, protection of 340
IRBM, deployment of 55
Jupiter:
Development funding for 166, 241
Procurement and support 315
Status of 54
Launching sites (*see also* this subject, Individual missiles) 328, 332, 339
Mace:
Mission of 68, 73
Procurement and support 323
Maintenance of 292, 547
Matador:
Deployment and use of 61, 68
Mission of 68, 73
Minuteman:
Mission of 13, 66
Research and development program 179
Mobility for 331
Navaho project, cancellation of 256
Nike:
Launching sites 69, 331
New missiles, initial effectiveness of 203
Overhaul of 537
Procurement and support 278, 308
Q–1, target drone, procurement and support of 324
Q–4, target drone missile, procurement and support of 325
Reliability of systems 205
Sidewinder program 323
Snark:
B–52's, comparison with 39, 41, 42, 46, 47
Cost of 44
Effectiveness of 41, 46
Launch site, cost of 47, 329
Procurement and support 316
Retaliatory force, number in 49
Solid propellent missiles (*see also* Minuteman missile) 13, 179
Thor:
Development funding for 241
Procurement and support 314
Research and development funding 241
Status of 54
Titan:
Development funds for 165
Engines for 338
Procurement and support 313, 326, 328, 337
